

## Seeking Next-generation Neurodegeneration Advancements

Johnson & Johnson is seeking **next-generation advancements in neurodegeneration**. Innovators worldwide are invited to submit their **novel strategies or approaches** that aim to **prevent or limit the progression of neurodegenerative diseases**.

### Approaches of Interest:

- Interventional approaches targeting neuronal and/or glial biology to promote homeostasis and neuroprotective mechanisms disrupted by aging are of particular interest
- Therapeutic interventions to treat dementia, cognitive decline, mood and depression
- All modalities are in scope

Research related to Alzheimer's disease or Parkinson's disease is of the highest interest. Compelling approaches for ALS and Huntington's disease may be considered.

All stages of development (from basic research to registration and approval) are in scope.

### Out of Scope:

- Medical devices
- Prebiotics, probiotics, and nutraceuticals
- Repurposed drugs

## Submission Information and Opportunity for Collaboration

Applicants should complete the **submission form** which should contain a brief, non-confidential overview of your science or technology, demonstrating how the RFP requirements are satisfied by your approach. Submissions should outline the resources required to solve the problem. To submit your application, please visit our **website**, register, and submit your application form under the appropriate Connect campaign. **Alongside your submission form, Johnson & Johnson requires the upload of a mandatory slide deck.** In submitting to this campaign, you agree to Johnson & Johnson's **Terms & Conditions**.

Submissions will be evaluated by a panel of reviewers on their ability to meet the following criteria:

- Strategic alignment with areas of focus
- Potential impact for transforming health outcomes for people living with neurodegenerative diseases
- Feasibility and thoroughness of the approach and supporting data
- Strength of the team

Selected applicants will have the opportunity to showcase their science in a closed-door poster session with Johnson & Johnson Innovative Medicine's Neuroscience R&D leadership, taking place in London during the week of July 11-16, 2026. (Subject to terms and conditions. No travel costs will be reimbursed for applicants to attend the poster session event in London, UK.)

### Opportunities sought

-  Research projects
-  Technologies
-  Academics and expertise
-  Centres of excellence
-  Company profiles
-  Biotech assets

### Submissions

Please submit relevant, non-confidential opportunities online [here](#)

Deadline: **18th May 2026 - 10:59 pm GMT**
